

# Scots growth is essential

*Success in Scotland  
Excel procurement  
process helps  
asbestos consultants*

**ASBESTOS management and training consultants Environmental Essentials are celebrating six years of trading by moving to larger premises.**

The new property in Bellshill, Lanarkshire, contains purpose-built laboratory facilities to cope with the growth of their Scottish operations.

The company provide accredited inspection and testing services from each of their existing offices in Stoke-on-Trent, Glasgow and the Newcastle-upon-Tyne and currently employ more than 85 staff nationwide.

Director James Riley said: "Despite the difficult economic climate, we see the investment in regional offices as the most effective manner in which to develop our business while replicating the excellent culture and services we continue to provide from our head office in the Midlands for our valued clientele in Scotland."

Due to their recent acceptance on to the Scotland Excel Framework for Asbestos Surveying and Testing, Environmental Essentials are

**ON THE RIGHT ROAD:**  
Environmental Essentials

expanding their operations in Scotland by recruiting further local personnel.

The regional office in Bellshill has now been operating for more than two years and boasts both site-based and laboratory technical personnel, as well

as an administration team. Scotland Excel is the Centre of Procurement Expertise for local government in Scotland, whose purpose is to work with members and suppliers to raise procurement standards, secure best value

for customers and improve the efficiency and effectiveness of public sector procurement in Scotland.

Business development manager Jamie Stevenson said: "With potentially over 30 local authorities and 60 public

sector organisations, this is a milestone in the company's development."
